### 技術資料 Technical data

| 型號 Model                                  | SDK-XZ-360-4                |                         |
|---|-----------------------------|-------------------------|
| 匹配馬達 Matching motor                       | 200~400W 伺服馬達               |                         |
| 容許扭距 Allow torque                         | Nm                          | 25                      |
| 轉動慣量 Moment of inertia                    | kgm <sup>2</sup>            | 4098 x 10 <sup>-6</sup> |
| 允許轉速 Allow speed                          | rpm                         | 200                     |
| 減速比 Reduction ratio                       |                             | 1/5                     |
| 定位精度 positioning accuracy                 | sec                         | ≤ 15                    |
| 重複定位精度 Repeatability                      | sec                         | ±5                      |
| 容許推力載重 Allow thrust load                  | Kgf                         | 200                     |
| 容許慣性載重 Allow inertia load                 | Nm                          | 80                      |
| 旋轉平台平行度 Rotate the platform parallelism   | mm                          | ±0.002                  |
| 旋轉平台同心度 Rotate the platform concentricity | mm                          | 0.01                    |
| 本體重量 Body weight                          | Kg                          | 10                      |
| 標準可搭配夾爪 Standard with the jaws            | RGN+66 RGN+80 RZN+66 RZN+80 |                         |
